PROJECTS

DevCollab – Collaborative AI Code Review Platform *Next.js 15, TypeScript, tRPC, Drizzle, Supabase, Claude API, Inngest, SSE*

- Implemented an interactive git diff viewer supporting multi-threaded comment resolution, asynchronous video walk-through uploads via UploadThing, and line-level developer presence powered by Server-Sent Events (SSE).
- Engineered an AI-driven code review assistant using the Claude API to scan pull request diffs, stream token-by-token feedback on style/bugs/security, and generate one-click mergeable suggestion fixes.
- Architected a scalable backend utilizing Inngest background workers for webhook synchronization, tRPC for end-to-end typesafe API communication, and Upstash Redis for multi-tier API rate-limiting.

Trekker – Trip Expense Tracker Web App *Next.js, Tailwind, Clerk, Supabase, Prisma, Tesseract.js, WebSockets*

- Built a real-time group expense tracker with integrated OCR for extracting UPI payment data from screenshots.
- Implemented live group chat and a real-time expense feed using WebSockets for seamless collaboration.
- Led full-stack development including trip creation, user authentication, expense logging, AI-based parsing, chat integration, and final settlement computation.

FusionX – Multimodal AI Assistant (AWS Serverless) *React, Tailwind, AWS Lambda, API Gateway, Bedrock, Textract, Rekognition, S3*

- Built a serverless web application to process and analyze diverse file formats (Images, PDFs, DOCX, PPTX, TXT) using a unified multimodal AI pipeline.
- Designed a responsive React.js frontend featuring drag-and-drop file upload, dynamic asset previews, and a status-driven UI reflecting orchestration states.
- Configured an AWS serverless pipeline using API Gateway and Lambda to orchestrate file routing, leverage Textract/Rekognition for extraction, and query Amazon Bedrock models for contextual responses.

EDUCATION

Dayananda Sagar University, Bangalore 2023 – 2027
Bachelor of Technology, Computer Science And Engineering **CGPA: 8.94**

KLE Societies Jagadguru Tontadarya P.U College, Gadag 2021 – 2023
PCMB **92.33%**

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, Java, C, React.js, Next.js, Tailwind CSS, Shadcn UI, Node.js, Express.js

Databases & Cloud: Neon PostgreSQL, MySQL, MongoDB, Supabase, Prisma ORM, AWS (Lambda, S3, API Gateway, Bedrock, Textract), tRPC, REST APIs

Tools & Concepts: Git, GitHub, VS Code, Figma, Postman, Socket.io, Clerk, ChatGPT, Serverless, Multimodal AI, CV, Document OCR

Core Strength: Quick Learner

ACHIEVEMENTS

- **Dev Hacks 6.0 – IIT Dharwad** ↗ 2025
Selected as the 4th Runner-Up in the pitching round among participants nationwide.
- **TechFlix Hackathon – DSU** ↗ 2025
Selected as one of the top 12 teams for pitching among nationwide participants.
- **FusionX Hackathon – Presidency University** ↗ 2026
Selected as a finalist for the pitching round among nationwide participants.
